

Bad Publicity (An Isobel Spice Mystery Book 2)

In the world of PR, there's only one crime worse than killing a deal--killing a client. Aspiring actress and office temp Isobel Spice finds a warm welcome at Dove & Flight Public Relations, thanks to her old school friend Katrina Campbell. However, the atmosphere chills considerably when Isobel unwittingly serves an important client a deadly dose of poisoned coffee. Her stalwart temp agent, James Cooke, rushes to her aid, but balks when he learns that the victim was the fraternity brother who got him expelled from college. News that Dove & Flight is being acquired by an international conglomerate quickly supplants the murder as the hot topic of office gossip, but Isobel is convinced the two events are related. When all roads of inquiry lead back to Katrina, Isobel is forced to consider the possibility that her friend's killer instincts go beyond public relations.
