

Hunters Moon (Lifting the Veil Series Book 3)

Sequel to The Wolfing Way Lifting the Veil: Book Three Ten years ago, the Great Unveiling revealed the presence of supernatural beings living on Earth, but not all humans know much about them or care about them as anything other than a paycheck. Kieran Knight is a freelance mercenary who hunts mythical beings for money. He abducts a man called Gabriel King, intending to turn him over to his client. But Gabriel isn't any ordinary cowboy. He's a powerful werewolf and the beta of his pack and as he and Kieran soon discover, he is also Kieran's mate. Kieran knows next to nothing about how mating works, and he isn't gay but that doesn't mean he doesn't feel the chemistry heating up between them. To save Gabriel, Kieran orchestrates an escape, but his clients won't give up their werewolf without a fight.
