

Travel back to the wonder years of rail in this beautiful compendium of art and illustration. Through luggage labels, maps, posters, advertisements, promotional brochures, napkins, and other colorful ephemera, All Aboard! celebrates our romance with the railroad. Its pages provide a nostalgic look at rail travel as it used to be, from the exciting early days at the turn of the century through its heyday in the 30s and through World War II. Lynn Johnson and Michael OLeary have collected hundreds of period images, from Deco-era logos that evoke the sleek, streamlined style of the day to wartime propaganda posters highlighting the muscularity of freight locomotives that transported weapons and tanks for American troops. All Aboard! also explores the art of the Orient Express and great European lines, the rugged rails of Canada, and exotic points abroad. This exciting new resource for train enthusiasts and everyone on the lookout for terrific images recreates the splendor of the modern locomotive era.
