

# The Vampires Kiss

Olena Petrovich had seen more than enough death and destruction in her three hundred years. Now the vampiress fought as a CSI agent. But nothing about this crime scene seemed right including the arrogant outsider from Interpol who challenged her authority. Sexy and cocky, the human was downright irresistible even to a vampiress who should know better. Though Cale Braxton was out of his league facing the vampires, lycans and witches of Nouveau Monde, he matched Olena in the one way that mattered passion. Olena had sworn shed never love and lose again, especially a human with his own demons. She and Cale lived in two different worlds, but after only one kiss, Olena wondered how she could ever spend eternity without him.
